

Scottish Women's
Rights Centre

OUR SERVICES

SWRC HELPLINE: 08088 010 789

Please check our website for opening times as these are subject to change.

IMPORTANT:

You can contact our Helpline to speak about the issues affecting you and to get some initial information and advice.

Our Helpline is now working on a triage basis: our experienced advocacy workers will be handling your initial call and they will put you in touch with our solicitors if you need further advice. You can read more about these changes here.

OUR SOLICITOR NETWORK

We have a signposting network of Solicitors across the country who have undertaken our domestic abuse training. You can find their details on our website.

LEGAL SURGERIES

Our legal advice surgeries are an opportunity to discuss your case in detail with one of our solicitors and get more specific legal advice.

To find out what advice surgeries are currently running and how to book to attend, please check our page.

HELPFUL RESOURCES

We have legal guides and factsheets which may answer some of your initial questions or concerns. More guides for survivors of sexual violence and for migrant women are also available on our website

You can take a look at our latest news and blogs for updates and more helpful information.

SIGNPOSTING

There are a number of great organisations and agencies that can provide other types of support on our website.
